

DSP3-700

OVERVIEW

The union of pro-audio durability and high-fidelity amplification led to the birth of our DSP3 series.

The DSP3-700 features 3 channels at 500W each at 8Ω or 500W each at 700V. The intentional addition of the third channel was to provide an easy way to control the low-end output of passive subwoofers. With a dedicated DSP curve for the subwoofer, you're able to tune the cross-over point precisely and use specialized processing on the full-range loudspeakers.

The DSP3-700 amplifier is a rock-solid performer with clean gain-on-a-wire amplification, subdued refined aesthetics, and arrives rack-ready with ears. Each amplifier comes preloaded with settings for the most popular Origin PRO loudspeakers, making fine-tuning a system fast and easy.

PRODUCT ID

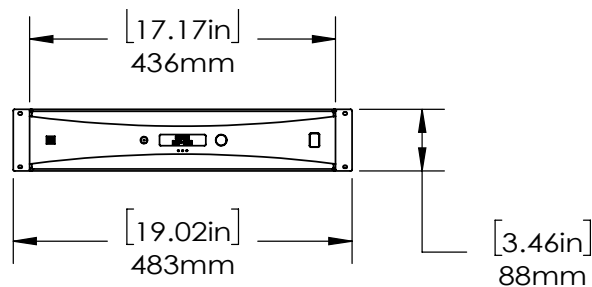

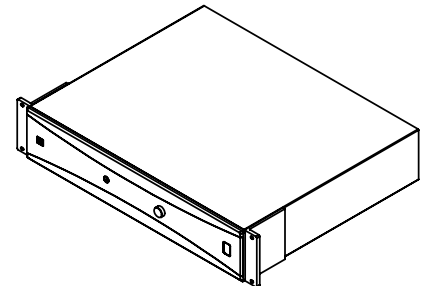

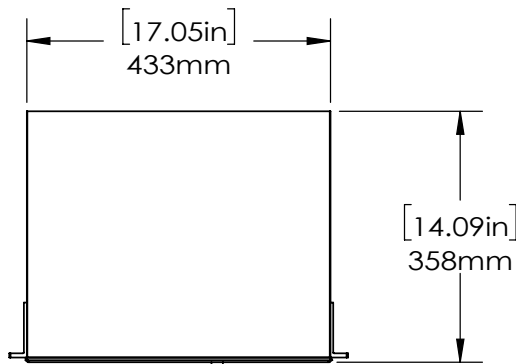

SPECIFICATIONS

DSP3-700

PART	AMPD03X7000
Channels	3 Powered Out (L/R/S)
Output Power	8Ω Load 500W 4Ω Load 700W 70V 700W Bridge Mode 8Ω 1,400 W
Frequency Response	20Hz – 48kHz
Dimensions	17" W x 14" D x 3 1/2" H - w/out mounts (433mm x 357mm x 88mm) - w/out mounts 19" W x 14" D x 3 1/2" H - w/ mounts (482mm x 357mm x 88mm) - w/ mounts
